January 30, 2010

Dear Mr. Stacey:

This letter is about the streamflow regulations. I support them, and don't understand the arguments for weakening them. I also don't think Connecticut citizens should be fine with a whole category of streams (Class 4) being written off. That just doesn't make sense. Some sort of guidance should be made for degraded streams to be made better, if possible. I know the DEP favors this idea. Please don't let anyone get away with saying that Connecticut citizens don't care!

Thank you,

*Barbara Currier Bell*
